

The Transformational Effect

as channeled from the Beings of Light through Liesel

“Many of you are familiar with the concept of the ‘Butterfly Effect,’ wherein something as small and simple as the flapping of a butterfly’s wings can ripple out into the world and result in major effects. We now ask you to dive deeper into this analogy. Of all the images chosen to illustrate this concept, why is the butterfly chosen?

Could you not, instead, choose any winged insect or bird? The synchronicity of the butterfly being chosen for this illustration is that the butterfly conveys the deeper symbolism of transformation.

So, not only do all small events or occurrences have the possibility of being amplified and expanded as they ripple out into the world, but in particular, all events and occurrences that are based in transformation (i.e. are like a butterfly) are particularly conducive to this phenomenon. So, any transformation towards a higher vibration within yourself or any external act of transformation towards higher vibrational manifestation (no matter how small or even minuscule it may seem) will reverberate throughout the world and throughout the collective consciousness in profound and immeasurable ways.”

“Always know Our love is truly with you, because Our love truly is you.”
